

The Bridger Bowl Ski Patrol triggered this slide on a heavily wind-loaded east facing slope at the ridgeline. They wrote, "With a shovel push the vertical cornice/pillow broke 15"-36" deep on a steep and rounded bulge just south of Lee's Leap running on the crust. The debris terminated well below Pat's Chute." Its code is HS-AC-R2-D2-O-TR. Photo: BBSP Advisory Region Bridger Range Longitude -110.92W Latitude 45.82N
