

Natural wet loose in Absarokas

Out of Advisory Area

4/5/2020

Code

WL-N-R1-D1.5-S

Elevation

9000

Aspect

NE

Latitude

45.65530

Longitude

-110.55800

Notes

From obs 4/5/20: "...saw a ton of tracks and a lot of natural dry loose activity. D1-D1.5 slides on steep E to NE terrain between 8000 and 9500'. Everything pictured released between 1200 and 1400 when the sun was out. Looked like rollerballs were heating up on the cliffs and triggering dry loose slides below."

Number caught

0
