

Pebble Creek from the bottom YNP

Date

Sun, 03/28/2021 - 13:00

Activity

Skiing

Skinned up underneath Baronette from lower Pebble Creek. Sauna following creek bed. Noticed what looked like fracture on the Mount Hornaday ridge (across valley from Baronette). Winds were keeping the wet slide activity in check. Cheers Jonathan

Region

Out of Advisory Area

Location (from list)

Barronette Peak

Observer Name

Jonathan Baker
