

9,300 ft N, NE facing slope

Date

Sat, 03/27/2021 - 16:30

Activity

Skiing

We were at the top of the tube above Blackmore lake and dug a pit.

9,300 ft North North-East facing aspect.

We got a result of CT 9 and ECT 12 q1 on the same layer 55cm deep.

Best,

Region

Northern Gallatin
