

Natural Avalanche Henderson Mountain

Henderson Mountain

Cooke City

11/13/2022

Code

SS-N-R2-D2-U

Elevation

10000

Aspect

NE

Latitude

45.05240

Longitude

-109.94500

Notes

From email: "We noted one recent [slab](#) avalanche today on a NE [aspect](#) of Mt. Henderson, around 10,000. We were skiing nearby on Nov. 11-12 and did not notice this [slide](#), but that may have simply missed it (that slope becomes shaded by about noon this time of year and there was lots of wind affected snow in that area.)"

Number of slides

1

Number caught

0

Number buried

0

Avalanche Type

Soft slab avalanche
