

Natural avalanche in palace butte basin

Date

Thu, 02/16/2023 - 11:35

Activity

Skiing

Saw debris and what looked like a crown line from a natural avalanche that probably happened a day or two ago in palace butte basin on a NE aspect above Arden lake. My best guess is 150ft wide crown, 1-2ft deep?

Region

Northern Gallatin

Location (from list)

Maid of the Mist
