

Natural avalanche in Twin Falls Basin

Mt. Bole

Northern Gallatin

2/15/2023

Code

Latitude

45.41600

Longitude

-110.99800

Notes

Saw debris and what looked like a crown line from a natural avalanche that probably happened a day or two ago in palace butte basin on a NE [aspect](#) above Arden lake. My best guess is 150ft wide crown, 1-2ft deep?

Number of slides

1
