

Natural avalanches in Flanders drainage

Date

Fri, 11/24/2023 - 05:35

Activity

Ice Climbing

From FB message: "Hi! I'd like to report 2 natural slides that were witnessed in the Flanders fork of Hyalite on Friday 11/24 on the east facing [aspect](#) of the canyon. Both avalanches came from a single snow field above "Bobo Like" ice climb. These slides happened at approximately 7:45am and 8:15am"

Region

Northern Gallatin

Location (from list)

Flanders Creek
