

Cracks and Whumpfs in Tele Meadows

Telemark Meadows

Southern Madison

1/20/2024

Code

Latitude

44.88990

Longitude

-111.06300

Notes

From obs: "Snowpack was 5-8" of wetter snow on top of the old facet layer.

Every time we stepped away from the skin [track](#) or skied untracked snow heard a few whumpfs and saw shooting cracks (most in the few foot range but a few extended 40-50' across the slope). "
