

N aspect above Bradley's

Date

Wed, 11/06/2024 - 09:20

Activity

Skiing

45.8305, -110.9307, 7840', NW aspect, 23°

ECTN3 failing on 3cm layer of 2mm buried facets at the ground. HS 65cm.

SE aspect hand pit has much more favorable conditions due to the lack of faceted old snow. Snow near the ground was still moist.

Region

Bridger Range

Location (from list)

Bradley Meadow

Observer Name

Shep
